

A clean facility starts from the ground up

Clean, dry floors welcome your customers and help promote a professional image. You're busy running your business, so let us help get your floors **Ready for the Workday[®]**. With scheduled service visits, Cintas will help you by delivering fresh mats and mops. It's all designed to save you time and elevate the appearance of your business.

MAT SERVICE

Mats capture dirt, salt, rain and other unwelcome messes as people enter and walk through your building. The right mat can not only keep your business cleaner, but can also reduce floor maintenance costs. With a large selection of professional-grade mats from Cintas, you'll easily find the right mats for your needs. Choose from a full line of carpet floor mats, scraper mats, custom logo mats, drainage mats, anti-fatigue mats, safety message mats and restroom mats.

MOP SERVICE

A clean mop means a clean floor. Dirty mop heads are a great spot for germs and bacteria to grow. When you reach for a Cintas mop, you can rest easy knowing it's clean and **ready[™]** for your floors. The Cintas mop rental program launders and replaces your mop heads every week. Choose from wet mops, dust mops, pulse mops and microfiber mops to meet your unique cleaning needs.
